Subject: CBS / Former Westinghouse
When: Wednesday, September 28, 2016 11:00 AM-12:30 PM (UTC-08:00) Pacific Time (US & Canada).
Where: R9SF-Room-16321-4-LonePine

Hello,

I am scheduling a meeting with you to solve the matters associated with the screening and cleanup levels that CBS and Hager Pacific proposed for the interior of the former Westinghouse warehouse building. I have attached the key emails pertaining to these essential elements of a plan for cleanup of PCBs inside the subject building. EPA would approve such a plan under the TSCA PCB regulations at 40 CFR 761.61 761.61(c). This regulation contains requirements for PCB risk-based cleanups. I have scheduled the call for 1.5 hours.

Leo, could you please provide a conference call number and code? Risk assessors from CBS, DTSC, and EPA should participate in this call. These are key players in the decisions that need to be made.
